STIR CIRCUIT

THE GREEN GLOW STRIP
RUNS STRAIGHT ON 12V.

NOTES

1. Inches. 72" to the hat tip. Sandbag the base. The head turns about 30° each way.
2. A 1/2" hub on the wiper crank carries the paddle 4" off center. Hands circle 8". A 1/8" cover is the potion.
3. Hands clamp a loose collar, so the paddle turns inside it. Shoulders and elbows are loose bolts.
4. Keep a 2" gap between the disk and the wall all round. Rope 3 ft out.
5. R1 on: fast stir. R5 on: a cam switch stops her head facing the guests.

CUT LIST & HARDWARE

QTY	PART	SIZE / SPEC
1	Base + post	48 × 30 ply, 2x2 post
1	Head motor + pivot	12V 6 RPM · R5
